

November 20, 1958

Dr. R. F. Holland, Head  
Department of Dairy Industry  
New York State College of Agriculture  
Cornell University  
Ithaca, New York

Dear Dr. Holland:

Thank you for yours of the 17th. I am glad to have an opportunity to express my complete confidence in Dr. Bradley. He already has a wide background in biological experimentation and this is coupled with a rare enthusiasm and an ability to get things done. He has a very perceptive approach to the problems in his area of research and to top all of this he is a very affable and generous person. I believe you could hardly do better for the position you indicate.

Yours sincerely,

Joshua Lederberg  
Professor of Medical Genetics
